Sprint 1 Planning Meeting Agenda

Project: Campus Marketplace

Date: 04 April 2026

Time: 11am

Location: Online

Facilitator: Khanyisile

1. Opening

- Welcome and meeting objectives
- Confirm attendance

2. Project Overview

- Brief recap of project vision (Campus Marketplace)
- Confirm understanding of client requirements

3. Product Backlog Creation

- Identify all major features of the system
- Convert features into user stories (Who–What–Why format)
- Prioritise user stories
- Write these in Trello.

4. Sprint 1 Backlog Selection

- Select user stories for Sprint 1
- Ensure alignment with tutor guidance:
    - Listings management
    - Buyer experience
    - Trade facility management
- Write these in Trello, and their status.

5. Task Breakdown

- Break selected user stories into smaller actionable tasks
- Define task requirements and expected outputs

6. Task Allocation

- Assign tasks to team members
- Clarify individual responsibilities

7. User Acceptance Tests (UATs)

- Define Given–When–Then tests for each user story
- Confirm how completion of user stories will be validated

8. Development Setup Discussion

- Confirm:
    - GitHub repository usage
    - Issue tracker approach
    - Branching/commit expectations

9. Test-Driven Development (Jest)

- Brief discussion on Jest setup
- Clarify expectations for Sprint 1 (setup vs usage)

10. Tools & Infrastructure

- Brief discussion on:
    - CI/CD setup (GitHub Actions)
    - Azure deployment (initial thoughts)

11. Scrum Process Alignment

- Plan upcoming Scrum ceremonies:
    - Daily standups schedule
    - Backlog refinement session
    - Sprint retrospective

12. Questions and Clarifications

- Open floor for team questions

13. Action Items & Next Steps

- Summarise decisions made
- Confirm the steps the work will be done, write the general format for sprint 1.

14. Closing

- Confirm next meeting time
- End of meeting
